III. Writing · 2. A possible paragraph

Last Wednesday afternoon, my class decided to take care of our school. Our teacher, Mr Fathi, and some parents helped us. First, we collected the papers and plastic bottles in the playground. Then the girls mopped the classroom floor and the boys cleaned the windows and the blackboard. After that, we planted flowers near the gate and painted the old bench green. At the end of the day, our school was clean and beautiful. We promised to keep it tidy every day.

One good model among many. The pupil's paragraph is marked with the checklist.
